The Power of Intention

*Intending what is for your highest good has power.
It is supported 100% by your Guidance.*

Intending what is for your highest good has power... It is supported 100% by your Guidance. To the extent you are willing to think and act congruently with your intention is the amount Guidance steps in to support. In a sense it is your game. Literally, you made it up!... feels good... It feels right... for you.

Mastery of Intention is a deeply personal process that always occurs in the present. No technology, guru or savior, however advanced, can do for us what only a commitment to evolving and operating out of our own divine consciousness and physiology can achieve.

~ Sol Luckman , [Conscious Healing](#)

You created your intention. This implies you are you are willing to give yourself to your intention... that you are willing to commit to your intention....

Honoring your intention means to favor thinking and acting congruently with your intention...To commit is a choice...It is a declaration that has power, because you say so.

*Inherent in every intention and desire,
is the mechanics for its fulfillment ...*
